5.2 QUALITY POLICY

The Knight Group is committed to a Quality Management System to control the supply and processing of material, to meet the standards agreed and to comply with customer's demands for quality product produced on time. To achieve this objective the company recognises the need to have planned effective management working to a quality system that meets the criteria of ISO9001 and pr EN9120

It is the specific responsibility of the top management to ensure a programme of continual improvement by setting company objectives and ensuring the resources are available for analysing and reviewing these objectives and all other aspects of the quality management system.

The Knight Group shall at all times comply with statutory and regulatory requirements with specific responsibility towards Health & Safety and environmental issues. Responsible environmental practices found to optimise every conservation, reduce waste, recycle solutions and limit impact to the environment.

The Knight Group conducts its business in strict compliance with applicable domestic and international legal standards. It strives to ensure business ethics are practiced with particular emphasis on free competition and rejection of any form of corruption.

All procedures referenced in the quality manual and detailed in the supplementary Operating Procedures have been approved by the undersigned and it is the express responsibility of all senior staff to ensure that all Knight Group personnel are aware of, and work to, the quality policy and procedures.

Approved by M.S. O'Neill
Group Managing Director
