

DODD-FRANK ACT / CONFLICT MINERALS DECLARATION

On July 21, 2010, the Dodd-Frank Wall Street Reform and Consumer Protection Act was signed into law. The Dodd-Frank Act and related U.S. Securities and Exchange Commission rules require certain companies to disclose the extent to which the products they manufacture or contract to manufacture contain so called conflict minerals sourced from mines in the Democratic Republic of the Congo (DRC) or adjoining countries. Conflict minerals include tantalum, tin, tungsten and gold, which are used in many products and electronic components.

As a global distributor, **Knight Group**, consisting of,

Knight Precision Wire Ltd (**KPW**)
Knight Strip Metals (**KSM**)
Precision Metals EU (**PM**)

promotes the traceability of these minerals and the transparency of the supply chain.

Knight Group is committed to working with its customers to supply products that meet the customer's specifications.

Knight Group will not knowingly purchase products that contain conflict minerals that directly or indirectly finance or benefit armed groups in the DRC or adjoining countries.

Knight Group expects its suppliers to only source minerals from responsible sources.

Knight Group fully understands the importance of this issue to its customers and is committed to supply chain initiatives and overall corporate social responsibility and sustainability efforts that work towards a conflict free supply chain.

Knight Group encourages all of our suppliers to likewise support these efforts and make information on the origin of their product components easily accessible on their websites, &/or issues similar statements, &/or certifies all product documentation at point of delivery.

More information on the use of conflict minerals is available at [Conflict minerals - GOV.UK \(www.gov.uk\)](http://www.gov.uk)
